

Nursery newsletter

10.9.21

It has been a delight to welcome all the new children to nursery. All the children have settled in very well and very quickly. We are having great fun getting to know each other, exploring the nursery and learning the expectations and routines of nursery life.

Next week's Topic: Getting to know each other

It will be the first week that all the children are in for the carpet sessions so we will be making sure we know all our names, and we will learn special things about each other: our favourite toys, colours, games etc.

Notices:

- We ask parents for a £6 contribution each half term (it works out at around a £1 a week or less for longer terms). This goes towards extra resources to enhance your child's learning experience. This goes towards cooking and play dough ingredients, collage materials, small world accessories, additions to the sensory path and outside area etc. Thank you to all those who have already contributed, we are very grateful.
- Please sign up for the free milk on <https://www.coolmilk.com> We will only receive cartons for those who have applied and often children who might not want milk at home will want to drink it here because their friends do. If you sign up at least they will have the choice to drink it or not!
- Please make sure all coats, jumpers, cardigans, hats, water bottles, book bags and pack lunches have your child's name on for easy identification.
- Full-time parents please provide a toothbrush for your child to put in their pack-lunch box. It is now a requirement that nursery children brush their teeth after lunch. We will provide milk teeth toothpaste for the children. Their brush will be kept in their lunchbox.

Things to do at home this weekend.....

Please encourage your child to be as independent as possible. Teach them to put on, and to take off their coats, jumpers, shoes etc. They learn inside and outside during their nursery session so they will need to put on their coats etc. independently as they access these areas.
