

Nursery newsletter

22.04.21

Notices

Welcome to our 12 new children who joined us this week!

- Next Friday the nursery are having a Pirate dress-up day when the children can all come dressed as pirates!
- Please can you bring in any empty plastic water bottles so your child can write a message in a bottle
- New parents: the uniform was in the nursery brochure you received from us before you started. All children wear navy tracksuit bottoms, a white polo shirt, Ryelands sweatshirt and Velcro shoes. It is essential the children wear tracksuit bottoms because they climb on equipment, sit in the sandpit, put on dressing up clothes, use the toilet and do many other lively activities
- New parents please write your child's name on their water bottle, book bag, coat and sweatshirt so we can identify them

This week: We have enjoyed learning about mini-beasts. We learnt how many body parts and legs insects have, and we found out that not all min-beasts are insects. We looked at all the beautiful colours and patterns on bugs and we realised that many of them blend in with their favourite plants. We found out how they moved and what they liked to eat and how they found their food. We painted many different mini-beasts and went on brilliant bug hunts in our outside area.

Next week's topic is...

Pirates! What are they? What do they do? How do they dress? Are they friend or foe? How do they travel? Why do they like treasure and where do they find it?

Next week's letter/sound is...

Things to do at the weekend....

- Go on a bug hunt in the park/garden and see how many bugs you can identify ...look at the features/colours/body-parts/patterns etc.
- As you go about your day count everyday objects with your child
- Older children begin to ask what number would be one more or one less
