

# Nursery newsletter

27.05.21

## Notices

- The children who will be going up to reception will shortly receive their reports (date TBA)
- The children RETURNING to nursery in September will not receive reports, but are invited to sign up for a short (parent evening style) catch-up, either in person in the playground, or via a phone call. The list of available appointments will go up on Monday for you to sign your child's name against.
- We are collecting this half term's £6 contributions, thank you very much to all those who have already paid

## This Week:

The nursery children have been doing number revision work. The children worked at different ability levels to progress their number knowledge. (The planned Wind topic will now go-ahead next week.)

We have been very busy trying to recognise our numerals, count 1:1 objects accurately, order our numbers, find one more or one less, find missing numbers on a number line, and some of us even used simple addition. We also printed numbers, wrote numbers, decorated numbers and played with number games and puzzles.

Next week's topic is....

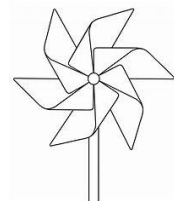

Wind

We will look at vehicles, recreation activities, machines etc. that rely on wind to move (for example wind turbines, windmills, balloons, yachts, gliders, kites, flags, wind surfers)

Next week's  
letter/sound is.....

Kk

Things to do at home....

For many of the nursery children this will be their last half term in nursery before going up to reception. If you can please practice pencil control skills, sounds and number work with them to make their transition easier.
