

Nursery newsletter

18.06.21

Notices:

- Nursery Sports Day is on the 30th June, we are very sorry but unfortunately because of the current restrictions parents will not be able to attend this year. We will take lovely photographs and display them on the outside board, and they will be available to purchase for £1
- Even though we've had scorching weather recently, less than half of the nursery children brought hats into school! We have no shade in our outside area so it is really important for the children to bring in a hat to protect them from the sun. (Caps are preferable because they stay on better while playing)
- We always make sure the children drink regularly throughout the day and we re-fill the children's water bottles for them, so if your child comes home with a lot of water in their bottle it is only because we have recently refilled it 😊

This week: The nursery children have been learning about wind. We found out what wind is, and we thought about the different types of winds there are (e.g. breeze, tornado, gale, hurricane etc). We also looked at which things need wind to make them move, such as balloons, windsurfers, yachts, flags, hang gliders, washing lines, windmills, gliders, turbines etc. We had great fun making our own kites and paper planes to fly, as well as fans and flags to wave!

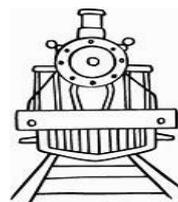

Next week's topic is...

Vehicles

We will look at a huge range of vehicles and discover how they move and what type of journeys they are suitable for.

Next week's letter is....

Things to do at home....

On the journey to and from school count how many different types of vehicles you see. Also see if you can spot things that rely on wind to move. Can you spot a flag, balloon, bunting or a toy windmill?
