

# Nursery newsletter

02.07.21

## Notices:

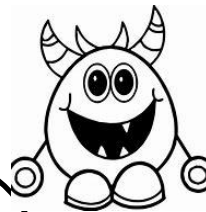

- The children had brilliant fun running their races in Sports Day and we had brilliant fun trying to make them run in straight lines! 😂
- On Monday 19<sup>th</sup> to round this unusual year off we invite you to stay and play (outside only) with your child, and to share an ice-pole with them at 10.30 and 2.30. We thought it would be a lovely opportunity, if guidelines allow, for you to share some time playing with your child in the nursery environment and to chat to the nursery team. We hope you can join us then!

This week: The nursery children have been thinking about Summertime. We thought about the changes to the weather, plants and animals in Summer. Then we thought about how we adapt the way we live, our activities, clothes and food etc. in summertime. Most of our week was taken up with practicing for sports day which was postponed to Thursday. We split into 3 teams and had a running race, a balancing a beanbag on the head race, a dressing up race, a pram slalom race and a balance bike race!..... and some of the children managed to go in the right direction! We all had a really fun time!

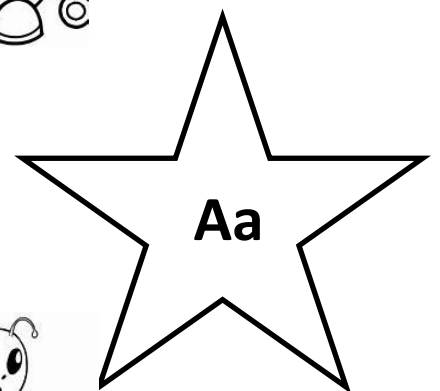

Next week's topic is....

Aliens!

We will decide whether we think Aliens exist and what they might look like. We will design and make our own alien, give them an alien style name and think about the planet they may have come from and what they think of ours!

Next week's letter is....

Things to do at home....

Please continue with numberwork and letter formation, always correcting the pencil grip so that your child has increased control.

Model correct sentence structure and pronunciation and vocabulary to help your child's literacy and communication skills
