

Nursery newsletter

14.01.22

King Joe

Zahra

Stars of the week:

King Joe for listening and following instructions!

Zahra for enjoying nursery!

Next weeks topic: Where we live.

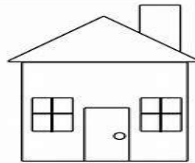

Following on from learning their house number and road name, the children will be discovering what an address is for, how to look for places and areas on a simple map and they will look at different types of houses and homes. We will try to find our school on Google Earth and draw our own giant map. We will also use shapes to construct houses and buildings.

Ww

Notices:

- Due to the high number of new full-time children we can no longer provide our drop in Lunch Club
- Full time children: please remember to put a toothbrush in lunch boxes
- New children: at home please practice taking coats on and off independently as the children are free to play inside and outside as they wish during their session. Also please provide mittens rather than gloves for the same reason.
- Thank you very much for all your £6 contributions we will be able to re-stock the dressing up area and add to our toys 😊

Things to do at home...

When you go for a walk look at the different types of building you pass, discussing and comparing their features.

Show your child a road map or a google map and look for parks, roads, railway lines, rivers, ponds, schools, libraries etc.

Look for shapes in the home and outside naming them and describing how many sides they have.
