

# Nursery newsletter

11.2.22

Aya

Gabby

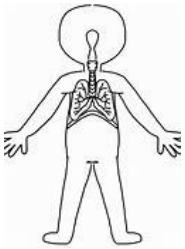

## Stars of the week:

Aya for learning how to put her coat on by her self!

Gabby for trying very hard to be independent with her clothes!

## Next weeks topic: My Body

Our body. We will learn to name the main parts of our body and what we use them for. We will also take a look inside our body at our major organs. We will learn why we have skin, a brain, bones, a heart, lungs etc and we will try to locate them on our bodies.

## Notices...

This week's  
sound is....

**Xx**

- It was lovely to speak to so many of you on the second parent's evening this week
- Please bring in any 'medical' packaging boxes, spare plasters, bandages, paper masks etc. for the Hospital role play area
- Just to clarify, the morning children continue to have their full three hour session which ends at 11.30, but we will open the gates at 20 past 11 each day to ease the transition and congestion for the children and parents. Please feel free to collect your child anytime from 11.20 if you wish.
- Please can you donate any spare carrier bags as we have completely run out and have nothing to put wet clothes in

## Things to do at home...

Please continue to practice name writing, or sounding out and writing CVC words if your child is at that level. When you share stories with your child, discuss the pictures and each part of the story as you read, talking about how the characters feel, what might happen next or how you could change the story ending.

WE HOPE YOU HAVE A LOVELY HALF TERM! ☺
