

Nursery newsletter

10.6.22

Omari

Emilia

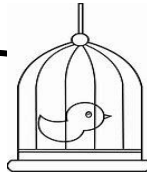

Stars of the week:

Omari for learning to use pegs correctly

Emilia for being happy and enthusiastic everyday

Next week's Topic: Pets & Vets

We are very excited to be looking after chicks in nursery, so next week we will be learning about how to care for animals and pets. We will think about how our pets depend on us to look after them responsibly. We will think about what they need to make them happy, and what pets do to make us feel happy. We will think about which animals make good pets. Throughout the week the children will help to clean our chick's brooder and give them clean water and food everyday.

Next week's
letter is....

Aa

Notices:

Unfortunately, because so many full-time parents requested an afternoon sports day slot, we will not be able to accommodate everyone. As a consequence, the full-time children who will be returning to Nursery in September have been given the morning slot instead, but they will be able to have first choice next year, when they will be doing sports day again.

Sports Day is on Tuesday 21st June, the nursery sessions will run as normal, and parents are invited to come in to watch the races. The children will wear their normal uniform (preferably shorts) and trainers, please put sun-cream on them and provide them with named sunhats. The children who are not participating in the slot will be cheering their friends on.

Please see the attached letter to see which slot your child will be racing in.

AM sports day is at 10.45am

PM sports day is at 2.30pm

Things to do at home...

- Discuss what pets need for a happy and healthy life
- Help your child to recognise random numerals to 10 and beyond
- Practice name writing and correct letter formation
- Children going into reception sound out CVC words (e.g. Cat, dog, rat, pet, box, top etc.)
