Nursery newsletter

18.11.22

Alex

Conrad

Stars of the week……

Alex for using his words much more and talking in sentences!

Conrad for coming into nursey without crying!

Next week's Topic: Where food comes from

We will be finding out where our food comes from before it reaches the shops and markets. We will explore different types of farms and factories and learn the difference between markets, supermarkets, shops, butcher, baker, greengrocer, dairy and fishmonger. We will try to understand the difference between natural food and processed food, and vegetarian, vegan and meat diets. We will decide what is a healthy plate of food and an unhealthy one. We will look at how supermarkets also divide food up into types. We will talk about where we shop for food with our grown-ups and what's on our shopping list. We will also think about how we pay for food (coins, notes and cards) and look at the idea of prices, and the meaning of expensive and cheap.

Notices:

- **The children thoroughly enjoyed our owl visit, it was very exciting to see three different species of owls close-up, and to listen to their different sounds and habits**
- **On Monday (21st November) Individual school photographs will be taking place**
- **Please can you collect smaller empty food boxes/packets/tubs for our Supermarket role play next week**
- **The Nursery Christmas Concert will be held in the nursery classroom on Thursday 8th December @ 10.30. The afternoon children and parents can join us for the concert. It will be standing room only and because of space constraints, limited to two adults per child**

Help your child to think of items you need for a shopping list

Draw attention to price labels in the supermarket and ask your child to say the numbers they see

Point out the signs telling you what's on sale, look at the pictures displayed

Play the memory game 'I went top the supermarket and I bought…'

Help your child to write numbers and of course make sure they use a pincer grip.
