

Nursery newsletter

6.9.2

A very warm welcome to our returning children and all our wonderful new friends who have just joined Ducklings Nursery! We are very proud of how well everyone has settled in, made new friends, and had fun exploring the resources. Although we have learnt the new children's names, we are still learning to match them to their grown-ups so please be patient with us at pick up time!

Notices:

- If your child has asthma, please can you fill out a specific form available from the office, we will need this before asthma pumps can be brought into nursery
- If your child has any allergies, it is vital you let us know ASAP as it takes a few days for the paperwork to catch up with us
- We are now collecting the once a term **£15** contribution towards play dough, craft, cooking, new toys, learning resources, wet wipes, toothpaste, tissues and many other things, it roughly equates to £1 a week and it makes a huge difference towards enhancing your child's experience in nursery 😊
- Please sign your child up for free milk, most children ask to have milk like their friends even if they don't drink it at home, but we only have cartons delivered if you have signed your child up for it. Please use this link to order some for your child, it is completely free <https://www.coolmilk.com>
- Each Friday we put a story book in your child's bookbag for you to share at home. We also put a reading record in so that we know which book your child has borrowed and we ask you to write a little comment to say if they enjoyed it/joined in/could talk about it etc. this is to encourage a love of books and to develop their language and comprehension skills. We can only change books on Fridays so the book and reading record need to be in the bookbags on that day please, if you forget then please wait for the following Friday to have it changed.
- Next week's topic is 'Marvellous Me!' We will try to understand that although we have some features, likes and dislikes in common, we are all very different, and unique, and that that is a good thing!
