Hugo

17.1.25

## Stars of the week:

Nico for recognising so many sounds in words

Hugo for thinking of unusual 'S' words

## Next week's topic: Re-cycling

We will be learning what 're-cycling' means. We will discover what will happen to the world if we don't re-cycle and re-use things. We will decide what objects can be re-cycled and think about what they could be made into. We will sort objects into ones that can be re-cycled and those that can't.

Next weeks  
letter/sound is  
Aa

- A warm welcome to all our new children. Most have settled very well, and we are very proud of how friendly and helpful the older children have been to their new friends
- Please bring in small boxes and plastic containers on Monday for junk modelling next week
- We are now collecting this term's £15 towards resources and experiences. Each term is a different length, but across the three terms it works out at around £1 per week, and collectively it makes a huge difference to us being able to enhance the provision we can provide for your child. A big thank you to all those who have already contributed 😊
- Please make sure your child's water bottle, jumper/cardigan, coat, hat, shoes etc are named, as we have 39 children all wearing the same or similar things!

## Things to do at home...

At home decide with your child what can be re-cycled or re-used and what can't be. Help them to sort packaging into Plastics, paper and cardboard.

Re-enforce why it's important not to waste food

Practise counting: look in the cupboard, count how many metal cans, cardboard boxes, glass jars and bottles are in there

Practice name writing with correct grip and letter formation
