16.01.26

**Billy**

**Nevaeh**

Stars of the week.....

Billy for singing a beautiful solo to the whole class in his first week!

Nevaeh for engaging more on the carpet, remembering her

## Next week's Topic: People who help us

We will be thinking about all the people who help us in our community. We will talk about the roles of the emergency services, and we will recreate an Emergency Services call centre in our role play area.

We will also think of other people that help us live our lives such as bin men, delivery people, dentists, doctors, nurses, TA's, plumbers, electricians, mechanics, builders, teachers, bus, train and tram drivers etc. We will think how difficult our lives would be without these people providing services for us.

We are learning  
the letter/sound **A**

We are still collecting this term's £15 contribution. A big thank you to all those who have already contributed.

There are still some full-time children who need toothbrushes please

## Things to do at home.....

Chat to your child about all the people that help them (teachers, doctors, dentists, police, postman etc) and think about the ways they help.

How do we help other people?

Identify pictures of people who help us by recognising their uniforms
