Summer 2

Curious Question.

I've learnt about things that grow on our planet; now how can I take care of it all?

Our Learning Journey

This week our topic has been Summer! The children have loved talking about their favourite summer activities, from going to the beach to playing in the paddling pool. We recapped learning about the seasons and used descriptive language to compare them. The children demonstrated a good understanding of the 4 seasons, their similarities and their differences. The children went on an imaginary trip to the seaside and made a list of the things they would put in their beach bag and spoke about the activities that they would do there. Throughout the week, the children have enjoyed various creative activities around the topic, particularly making kites! We discussed how to stay safe in the sun, wearing sunscreen and sunhats, as well as drinking plenty of water. This week the children continue to impress us with their excellent writing and maths. This week we introduced the children to the iPads, more information about these will be sent home next week.
